

**70
GALLON**

Fits Like a Glove

Adjust the 70-gallon fuel tank and tool box combo to the depth of your truck bed!

The all-in-one 70-gallon auxiliary fuel tank and tool box combo is the best of both worlds, providing more fuel and secure storage for all your adventures.

Our patented 70-gallon fuel tank and tool box combo is uniquely designed to sit on the bed rails and adjust to the depth of the pickup bed. With up to 9 cubic feet of storage space and locking paddle handles, you can rest easy knowing your cargo and fuel is secure.

The 70-gallon fuel tank and tool box operates with our TRAX 4™ operating system. Based on the capacity of your pickup's main fuel tank and the capacity of the Transfer Flow auxiliary fuel tank, the TRAX 4™ system will transfer fuel at pre-determined levels while the vehicle is in operation.

Want to know the status of you fuel systems? Simply download the TRAX 4™ app to your smartphone and enter your vehicle and fuel system information. You'll be able to monitor your pickup's fuel capacity in no time.

SHORT AND LONG BED

Fits: 2008 and newer Ford, 2010 & newer GM/Chevy, Ram
Fuel: Diesel
Ship Weight: 280 lb.
Dimensions: 73" L × 24 1/2" W × 23 3/4"-27 3/4" H
