

**40
GALLON**

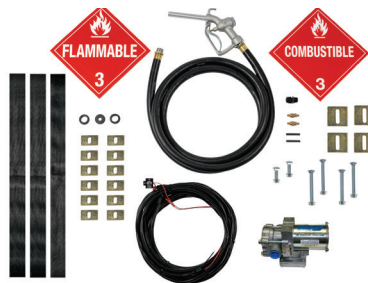

The Living is Easy

**Keep your gear and extra fuel secure
in a refueling tank and tool box combo!**

Our 40-gallon refueling tank and tool box combo is the perfect solution for drivers who want a mobile refueling station onboard with 6 cubic feet to securely store gear and equipment. The 40-gallon refueling tank is Department of Transportation (DOT) legal to carry and transfer gasoline, diesel, and kerosene fuels, and features an easy-to-use purge function that moves remaining fuel from the hose back into the fuel tank. The tool box is equipped with locking handles and gas-filled shocks that make it easy to open and close the tool box lid.

The 40-gallon refueling tank is made from 14-gauge, high-yield U.S. aluminized steel for superior durability and strength; and powder coated for durable satin black finish. As with all Transfer Flow fuel tank systems, this refueling tank comes complete with all parts needed for installation, down to the last zip tie.

All fuel systems ship with all parts needed for installation and use.

**SHORT AND
LONG BED**

Fits: All Full-Size Trucks

Fuel: Gasoline, Diesel, Kerosene

Ship Weight: 215 lb.

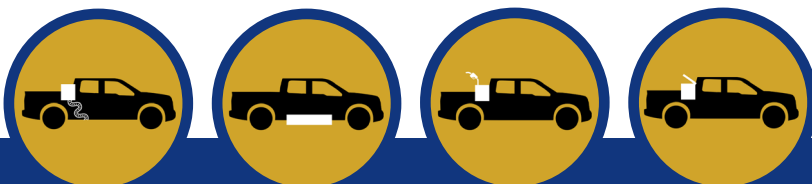

Outside Dimensions: 59" L x 21" W x 21 5/8" H
