

40
GALLON

The Back Forty.

***Install the world's most universal
auxiliary diesel fuel tank!***

Our 40-gallon in-bed auxiliary fuel tank system is designed to be compatible with almost any diesel truck, including half-ton pickups, trucks with utility beds, RamBox equipped trucks, or those with a factory installed 5th wheel prep package or other 5th wheel hitch. The patented fuel tank design has a recessed cover box where the sending unit, rollover valve, and fuel filter come preassembled. You'll be pleased that its low height means it can fit under most standard tonneau bed covers.

The 40-gallon fuel tank is manufactured from 14-gauge, high-yield U.S. aluminized steel, and is baffled on all four sides for extra strength and to reduce fuel slosh. It comes with all parts needed for installation.

Like all our auxiliary fuel tank systems, it is computer-controlled by our patented TRAX 4™ operating system for worry-free fuel transfers. Based on the capacity of your pickup's main fuel tank and the capacity of the Transfer Flow auxiliary fuel tank, the TRAX 4™ system will transfer fuel at pre-determined levels from the auxiliary tank to the main tank while the vehicle is in operation.

**SHORT AND
LONG BED**

Fits: 2008 and newer Ford, 2010 & newer GM/Chevy, Ram
Fuel: Diesel
Ship Weight: 132 lb.
Dimensions: 48" L x 19" W x 19 3/8" H
Part Number: 080-01-16637

FEATURES AND BENEFITS

- For drivers who require additional fuel capacity but require maximum bed space
- Won't interfere with standard 5th wheel hitch
- Fits under most tonneau bed covers
- Robot-welded seams provide extraordinary strength, unlike rotationally molded plastic tanks
- Includes all components needed for installation
- TRAX 4™ computer-controlled automatic fuel transfers for worry-free operation
- Built from high-yield U.S.-made aluminized steel powder coated black
- Baffled to prevent fuel sloshing
- 6 year, unlimited mile warranty
- Made in the USA
- **Optional upgrade:** Fuel level monitor LCD
