Let's Go More Places

Outfit your Tundra with a high-capacity replacement fuel tank that's built to do it all!

Toyota Tundra owners enjoy luxury wrapped in rugged durability and what better way to emphasize those qualities than nearly doubling your driving range with our high-capacity replacement fuel tank system.

**5 1/2 FT, 6 1/2,"
AND 8 FT BED**

Fits: 2007—21 Toyota Tundra® Double Cab and CrewMax
Fuel: Gasoline
Ship Weight: 187 lb.
Dimensions: 77" L × 17 1/4" W × 12 1/2" H
Part Number: 080-01-17298

The 46-gallon replacement fuel tank system is 50-state legal, and is available for 2007—21 Toyota Tundra Double Cab and CrewMax non flex fuel models. The replacement fuel tank is manufactured from 12-gauge high-yield U.S. aluminized steel, for superior durability and strength; and comes with a secondary emission canister and bracket that mounts to the vehicle's crossmember.

All Transfer Flow fuel tank systems are backed by our 6-year, unlimited mile warranty, and come complete with all components needed for installation.

This tank will only fit Tundras originally equipped with a 26-gallon stock tank.

FEATURES AND BENEFITS

- For drivers who want to maximize their fuel capacity and driving range without sacrificing truck bed space
- Tank sits above the differential, no skid plate needed
- Fits in the same space as stock fuel tank
- Fuel tank mounts inside the frame rail
- Built from 12-gauge high-yield U.S.-made aluminized steel for durability and strength
- Comes with secondary emissions canister, straps, and mounting hardware
- Not available for flex fuel Tundras
- Powder coated black for durable finish
- Baffled to prevent fuel sloshing
- 6-year, unlimited mile warranty
